Brown Box Plans by The Jolly Roger

This is a fairly simple mod that can be made to any phone. All it does is allow you to take any two lines in your house and create a party line. So far I have not heard of anyone who has any problems with it. There is one thing that you will notice when you are one of the two people who is called by a person with a brown box. The other person will sound a little bit faint. I could overcome this with some amplifiers but then there wouldn't be very many of these made [Why not?]. I think the convenience of having two people on the line at once will make up for any minor volume loss.

Here is the diagram:
